

## Canada Needs More Workers

With present prospects for a bumper crop in Western Canada this year—the brightest since 1914 says the Winnipeg Free Press—with the railway companies all clamoring for thousands of unskilled laborers to be used in construction work, coupled with the announcement that if they are not obtainable hundreds of miles of badly needed branch lines cannot be built; with such a shortage of coal predicted that Western Canada will be forced to rely entirely upon the production from its own mines, and with extensive road-building programs being deferred because the necessary labor cannot be obtained, the question of immigration to this country once again looms up as one of paramount importance.

During the war immigration was practically at a standstill, and in addition, the energies of all people were diverted to war effort. As a consequence development work and construction programs of all kinds were halted. Now, after an interregnum of six years, there is an enormous amount of work to be done in order to "catch up." There may be a sufficiency of skilled labor, but there is admittedly a great shortage of unskilled workers. Yet there must be unskilled workers in order that the skilled workers may be kept employed.

No doubt Canada could obtain all the foreign labor it requires if it let down the immigration bars, and threw the doors wide open to all and sundry who cared to come. But Canadians have made up their minds not to repeat the mistakes of the past. The industrious, law-abiding, physically fit and morally clean all the white races will be welcomed, but no longer will the offshoots of Europe, the mentally deficient, the morally leprosy, the physically unclean and weak, be allowed to enter Canada to pollute this country, carry infection to others, and lowered the standard of our people.

The difficulty of securing the right type of immigrants, the only kind we are prepared to receive and welcome, is increased by the fact that while the war-impoorished countries of Europe are willing to allow the migrants and denizens of their people to emigrate, they are anxious to retain the strong and sound in order to re-establish all the productive enterprises of their own lands. Canada's problem of securing immigrants of the right and only acceptable type is, therefore, no easy one.

According to United States government immigration officials only lack

of ships is keeping back hundreds of thousands of prospective European immigrants from flocking to this country notwithstanding the post-war passport restrictions. The Chicago Tribune declares that "nearly six thousand aliens in many European countries have applied for permission to emigrate to America," and The Literary Digest says that for more than a month immigrants have been arriving in the United States at the rate of ten thousand weekly.

It will be seen, therefore, that notwithstanding the proscriptions now enforced by the United States and Canada on undesirable, and the efforts of European countries to retain those of their own people who are of the desirable immigrant type, workers can be obtained if the government immigration officials bestir themselves. In particular, Canada should strive to secure new British and Irish workers from the United States and the United States.

Other countries are active and are offering inducements to the immigrants. We read in a United States paper:

"Numbers of Italians, Spaniards, and Poles are going to Argentina, and there are many of these nationalities already located. Free land is being given to the newcomers.

"Brazil is not only paying passage for immigrants, but takes care of them on arrival, and transports them free to their destination.

"Chile is inducing immigration by giving one hundred acres and implements to each immigrant.

"New Zealand has arranged with the shipping companies for reduced fares for desirable immigrants."

So, Canada will have many competitors in the effort to secure desirable settlers and workers. Yet no student of present day conditions in this country can question the need of additional population in this country. Without it, people now here must carry unduly heavy burdens of taxation, while at the same time going without conveniences and services to which they are entitled and need in order to prosper as they should.

Governments can do much, but every individual can assist by making the newcomer welcome and assisting him in every possible way to "make good," and thereby become a satisfied and contented citizen, while the lot of the hired man or woman should be made as pleasant as it is in the power of the employer to make it.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold everywhere.

### Returning to Old Land

While so far no general movement towards the exodus of settlers of central European origin is noticed, the prediction is made that after harvest this year many of the Italian, the Balkan states, will depart from western Canada for their former homes in Europe attracted by the favorable conditions under which they can exchange their Canadian savings for the money of their native land.

A pure white clay found at Pompeii is said to have been used as soap by the Romans.

### Irritated Itching Skins Soothed With Cuticura

Bathe With  
Cuticura  
Soap  
Dry and  
Apply the  
Ointment

These super-creamy emollients usually supplying, clearaway pimples, redness and roughness, remove dandruff and scalp irritation, and heal red, rough and sore hands. If used for every-day toilet purposes they do much to prevent such distressing troubles. Nothing better, safer or more economical at any price.

Soap 25c, Ointment 25c and 50c. Sold everywhere. Cuticura Soap and Ointment, Cuticura, Limited, St. Paul St., Montreal.

### Settlers on Irrigated Land

Five thousand acres of land on the Canadian Land and Irrigation company's tract have been purchased by settlers from the United States and are being put into crop. Water will be available this season to irrigate the growth.

## WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. They are the ideal home remedy for the baby; being guaranteed to be absolutely free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved of the greatest aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them, Mrs. Ernest Gagne, Beaumont, Que., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recommend every mother to keep a box in the house." The Tablets are sold by medicine dealers on mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Teachers' Household Science Course

The University of Saskatchewan has recommended the establishment during the academic year 1920-21 of a one-year course in household science for teachers in the provincial schools, the course to include both foods and textiles as well as related subjects, including chemistry.

In a wild state the horse lives to be 35 to 40 years old, while the domestic horse is old at 25 years.

## UNFIT TO LIVE—MUST DIE

The verdict rendered a thousand times when corns get sore. Do them to death by Putnam's Corn Extract, it cures painlessly in 24 hours. Use "Putnam's," the only vegetable remedy known, price 25c at all dealers.

### Counting in China

Ten thousand is the largest number in the Chinese language. Therefore all large sums must be stated in multiples of this figure—thus the population of the country is four times 10,000 times 10,000, or 400,000,000.

## Germany Delivers Coal

Also Sends Livestock to France And Belgium

Up to May 30, German deliveries of coal to France under the treaty of Versailles, amounted to 4,685,000 tons. It has been officially announced by the reparations committee. Of this total 405,000 tons were given to Luxembourg, Italy received 316,000 tons, and Belgium 98,000 tons in the same period.

Germany up to the end of May, the announcement shows, also had delivered to France 6,547 horses, 40,720 head of cattle, 67,427 sheep and 7,755 goats.

German deliveries to Belgium in this period were 3,115 horses, 43,489 head of cattle, 5,644 sheep, 6,140 goats and 28,339 fowl.

Minard's Liniment Lumberman's Friend.

## Livestock Often Shrink in Transit

Can be Avoided by Proper Precautions in Shipping

Investigation by the Colorado Agricultural College is beginning to show that shrinkage of live stock when shipped to market can be very greatly reduced. The most important thing is a comfortable car and not much crowding. The next thing is to have the animals well fed and contented when they are loaded and until they are sold at the terminal market. In other words, plenty of feed and water and comfortable quarters are most important.

"Some farmers," says R. W. Clark, live stock specialist for that institution, "ship regularly with little or no shrinkage, while others at all times have enormous shrinkage."

There is no more effective vermifuge on the market than Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

## Plow Summerfallow Early

Plowing Should be Completed Early In July at the Latest

The chief purposes of the summerfallow are to store moisture and to kill weeds. Rains falling on freshly-plowed lands are more readily absorbed. The water is retained better, partly because the surface can be cultivated to reduce evaporation and also because there is no loss by the transpiration through the leaves of weeds. The latter is an important consideration, as it takes about 500 pounds of water to produce a pound of dry matter in common weeds. Furthermore the rains falling on plowed land help to firm it, and nature thus does for nothing what costs money if done by mechanical means. The plowing should be completed early in July at the latest.

Plowing should be deep, at least seven inches, to provide a good reservoir for moisture. Follow the plow with the harrow, preferably a section attached to the plow, unless there is danger of drifting. In that case pack instead of harrowing. The weeds may be kept down and a mulch of small lumps and granules maintained by using the duckfoot cultivator. The disk pulverizes the soil of a summerfallow unduly and increases the tendency to drift.

Still, a man never seems anxious to marry a woman who isn't afraid of a mouse.

ARCHIE P. McKISHNIE

Printed by Special Arrangements with Thos. Allen,  
Toronto, Ont.

(Continued.)

"Boy," chided the father sternly, "you mustn't swear. Watson nor Halibut, nor any other man is that bad. You've let the words get into you until you're fanciful. Read your Bible, and pray more."

"I didn't mean to swear, dad. I've sworn more today than I have for years. I can't stand to think that they men will steal this beautiful spot that is ours now, and eat and cripple it and drive its wild things away."

"Halibut's saw mill is running nights," said the father thoughtfully. "He made French Joe an offer for his timber through Watson the other day, but I guess it wasn't much. Joe owed him money."

"Well, us Bushwhackers are going to hang together," said Boy. "We own over two thousand acres of the best timber in Ontario. We can keep it by fighting. If we don't fight—"

He turned and walked toward the door.

"Boy," warned the elder man, "don't you do anything you'll be sorry for. Just forget all about Watson and Halibut for a while. I want to tell how we all come to be in this place we love so much."

"Before you were born, Boy, I lived in the States; ranched it in Arizona. And there was a man down there who as much as stole everything I had in the world. It was because of a woman that he lived to enjoy it all for a time. That woman was his wife, your ma's more'n friend, little Glossie's mother."

Boy looked up quickly, then dropped his head again.

"That woman was a lot to me and your mother. She was a lady, every inch of her, and educated, too. She taught your ma to be the scholar she is, and she was the kindest-hearted, sweetest woman that could be found in the world. Seems as she ran off from a fine home and rich people to marry that man. He was a bad 'un, her man; bad in every way a man can be bad, I guess. He drank and he abused her—"

Big McTavish caught his breath, hard.

"Course," he went on, "we might have killed him—lots of us there would have done more than that for his wife. But you see that woman stuck to him in spite of all he did to make her life hell; so we let him

alone. Your ma worshipped her, or as near it as mortal can worship mortal. Women are not very plentiful on the plains, Boy. When I lost everything to her husband, through his cheating me on a deal, and made up my mind to quit ranching and strike for some new country, she promised me that after her baby was born she'd come to us, no matter where we might be. You see it had come to such a pass that she simply couldn't live with that man no longer."

The big man paused to light his pipe, and boy asked:

"Did she come?"

"No. We came direct here to Ontario and settled in this hardwood, me, and your ma and Granny McTavish. All we had in the world was the clothes we wore and three hundred dollars in money. I took as much land as the money would buy from the Canadian government and started in to cut out a home. You was born soon after we'd settled here. Peder came and he settled alongside us, and soon after that Decline came."

"We wrote to the poor little woman out West and told her the latching was out for her whenever she could come. You see I'd built this house by then, and we all felt tolerably happy and well-to-do. We never got an answer to our letter, and the followin' spring I left you and your ma and Granny with the neighbors and struck the back trail for Arizona. I found that her man had been killed in a quarrel with a Mexican, but nobody seemed to know where she and her baby had gone. I hunted high and low for them, but at last had to give it up. I thought maybe she had gone back to the home of her people, 'cause I learned that her husband had left some money behind him. When I got back here I found two babies since I'd left but one. You had a little girl, couzination 'dramin' in your hammock beside you, Boy. Your ma picked her up and put her in my arms and she cried a good deal your ma did, and by and by she showed me a little gold locket that she had found tied about the baby's neck. I opened one of the doors and a tiny picture lay there. Then I knoed at once whose baby it was that God had sent to us, and I knoed, too, that the baby's mother would never come now."

An old Indian was there and he told me how a man in Sandwich had given him money to tote the baby down to us. He couldn't tell us much about the man. We called the youngster Gloss, 'cause that was the name the old Indian gave her."

McTavish rose and knuckled the ashes from his pipe.

"Now you know how we all come to be here, Boy," he said gently, "and you know why old Injun Noah is so near to us all. He was the man who brought our girl to us."

Boy did not speak, and the father quietly left the room. At the door he turned and looked back. The boy was sitting with his chin in his hands. Outside, the moon was trailing low above the tree-tops, and the owl's hoarse, sounded far-off and muffled.

### CHAPTER IV.

On that triangular forestland of extreme southwestern Ontario there was a block of hardwood timber, consisting of over two thousand acres. This was known as Bushwhacker's place. On its left lay a beautiful body of water named Rond Eau, and so close to this natural border grew the walnut trees that when the night war old the moon cast their shadows far out across the tranquil waters. From the edge of the land, the road led eastward the forest swept in valleys and ridges until the lower lands were reached. Then the hard timber gave way to the rugged softwoods of the swales, where the giant basswood, elms, and ash trees gripped the damp earth with tenacious fingers that ran far underground, forming a network of fibre, which to this day wears down the lowpoints of the tillers of the soil.

Why this upland was called Bushwhacker's Place, or why the people who held possession there were called Bushwhackers, has never been explained. In fact, those simple people were not bushwhackers, but hunters, trappers, and fishermen. True, each landowner had cleared a little land, quite sufficient to raise the vegetables necessary for the table and fodder for his sheep, cows, and pigs during the winter months; but the

common tendency among the Bushwhackers seemed to be to let the timber stand until it was required for firewood.

All buildings in Bushwhacker's Place were constructed of logs mortised at the ends. The beams, rafters and floors of the homes were split or hewed from the finest grained timber growable. When the walls were raised to a sufficient height, doors and windows were cut in them, the rafters of the roof were laid, and the wide slabs, split from straight-grained ash blocks, were placed on the roof, overlapping one another so as to shed the rain. Blue clay was dug from the earth to fill in the chinks between the logs. The Bushwhacker's home was roomy, warm and comfortable.

(To be continued.)

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

The new telescope of the Mt. Wilson Observatory in California is a quarter of a million times more powerful than the human eye.

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Let "Danderine" save your  
hair and double  
its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair, a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage.

Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stiff or faded, but charmingly soft with glossy golden gleams and tender lights. The youthful glows, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks the itching and stops falling hair. Get delightful Danderine for a few cents at any drug store, toilet counter and use it as a dressing and invigorator as told on the bottle.

## Mother's Preserving-Time Helpers

### Chinese Adopting English

An explorer who recently returned from China, states that wherever he went he discovered that the natives were beginning to regard the English people with greater favor than was usual in the past. In Chinese schools for some years past the Arabic numerals have been in use. The figures 0, 1, 2, 3, 4, 5, 6, 7, 8, 9, are infinitely easier to learn than the cumbersome Chinese figures and as both are taught in the schools, it stands to reason that the young John Chianman are going to favor the easier method. The Braille system is in use in China for the blind, who, owing to the prevalence of leprosy, are common in that country.

### Antique Grain Will Not Grow

The stories about the germination of wheat and other cereals, found wrapped with ancient Egyptian mummies, are declared to be fictitious by the United States Department of Agriculture. French tests show that grain more than a few years old will not germinate. German tests indicate that when seeds are kept under ideal conditions, wheat, barley and oats may germinate up to eight or ten years, but few if any grains, are alive after twenty years.

## ECZEMA

You are not experiencing any trouble when you use Dr. Chase's Eczema Cure. It relieves the skin, soothes the itching, and keeps the skin healthy. It is a sure cure for Eczema and all its troubles. It is a sure cure for Eczema and all its troubles. It is a sure cure for Eczema and all its troubles.

# May Regulate Export Trade of Certain Commodities

Ottawa.—A resolution supplementary to the production of an act to give the government power to regulate the exportation of any commodity produced or manufactured in Canada when circumstances call for such restrictions was introduced in the house of commons by Sir Robert Borden.

The prime minister explained that strong representations had been made that in the interests of the public, it would be necessary to restrict export of such articles as coal, sugar and newsprint. He asked parliament to postpone the usual discussion of the resolution so as to be able to permit the bill to be introduced forthwith. It would be referred to a select committee of parliament which would probably have some revision to make, and then the bill could be debated in the house in committee.

In reply to the objections of Jacques Bureau, Liberal member for Three Rivers, Sir Robert said that he hoped the select committee would find some way of meeting the emergency which had called for the bill, which would take into consideration of the government the great responsibility involved in carrying it out.

## Name British Objections

Marine Bill Would Prevent Use of Other Than U. S. Ships

Washington.—British objections to the enforcement of the new American merchant marine bill are understood to be based principally on two sections of the measure.

The first prohibits the carrying of merchandise in other than American ships between American ports via a foreign port. This would stop freight carriage between the United States and Alaska over Canadian railroad lines or in Canadian ships, which has grown into a business of magnitude.

The other section directs the president to abrogate all treaties which restrict the right of the United States to impose discriminatory duties upon foreign shipping entering American ports.

## Plan to Keep Men on Farms

Montreal.—R. B. Sauvage, secretary of the United Farmers' Association of Quebec, announces that the institution will meet here to discuss what steps will be necessary for them to take in order to prevent men from deserting the farms and seeking work in the cities and also for the protection of those already engaged in tilling the soil.

## One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and household duties than they do to their health. Is it any wonder then that they become irritable and nervous, have hot flushes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health. Mrs. P. H. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used a box and a half when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

Price \$5 a box at all dealers or mailed on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Cost of Living Still Going Up

Labour Gazette Reports A General Movement of Prices Upward

Ottawa.—The Labour Gazette reports that in prices the general movement continues upward, increases in grain, fodder, livestock, fuel, building materials and furnishings slightly more than offsetting decreases in eggs, milk, hides, textiles and in raw furs.

In retail prices the average cost of a family budget of staple foods in 60 cities was higher, rising to \$16.65 at the middle of May, as compared with \$15.99 in the middle of April, and \$7.42 in May, 1914. The chief increase was in potatoes, which averaged \$6.15 per bushel, as compared with \$4.78 in April. Sugar also advanced, averaging 21.7 cents per pound for granulated, as compared with 19.5 in April. There were slight increases in some meats, and in several of the other lines, with decreases in eggs and milk. Coal and coal oil were also upward, and rents averaging considerably higher.

## Eulogizes Canada

Manchester Guardian Says Dominion Never More Attractive to The Emigrant

London.—The Manchester Guardian publishes a special Canadian number containing a message from Sir George Foster. He says:

"Canada welcomes every intimation of a renewal of interest and enterprise as displayed in the press and the business community of the Motherland in reference to overseas possibilities of which they have too long been neglectful."

The Guardian, editorially, says that nobody acquainted with the temper and aspect of the Dominion since the war can fail to partake of her optimism, nor, at the same time, fail to be impressed with the welcome moderation and sanity that characterizes it. There is no trace of the excessive bounding so dangerous to her reputation in pre-war years, it says.

Continuing, the Guardian says: "On the contrary, both provincial and federal governments together with such responsible bodies as the United Farmers, are showing genuine anxiety to secure that investor and immigrants are given reliable facts and figures, and that the operations of the speculator shall be discouraged. Throughout the Dominion there is manifest an anxiety to be done with machine politics; the rule of the interest and the pull of the lobbyist; never, indeed, in her history, has Canada been a more attractive land to the immigrant with political ideas."

Will Not Trade With Bolsheviks  
Brussels.—In official quarters denial was made of a report that Belgium would join in the negotiations with Gregory Krassin, Bolshevik minister of trade and commerce, for a resumption of commercial relations with Soviet Russia.

## House to Prorogue Soon

Ottawa.—It was learned that leaders on both side of the house of commons expect prorogation by the end of this week. Many members, however, do not think the house will rise before July 1 at the earliest.

## B. C. Air Board Elected

Vancouver, B.C.—Lieut. Col. Hon. E. G. Prior, lieutenant-governor of B. C., and Henry Bell-Irving are named as members of the British Columbia advisory council of the air board of Canada.

## Coast Lumbermen Want Raise

Prince Rupert, B.C.—All employees of mills and logging camps east of Hazelton, B.C., are on strike for an eight-hour day and \$1 a day with board, as a minimum.

## Turkish Capital to Be Under Allies

Internationalization of the Port of Constantinople Provided in Turkish Treaty

London.—Limited internationalization of the port of Constantinople and its inclusion within the zone of the straits is provided in the provisional treaty between the Turkish treaty. This is disclosed by an official summary of the parallelism provided for the inter-allied commission of control.

Granted its own flag, budget and separate origin, the commission by the lines of the boundaries fixed for the "zone of the straits," will have authority over a territory larger than some of the smaller nations of Europe. Made almost sovereign in itself, the commission is to be practically independent of the League of Nations, as stipulation is expressly made that should it find liberty of passage of the straits interfered with, it shall take such measures as may be deemed necessary to preserve the freedom of the straits.

The zone includes not only the Bosphorus, Sea of Marmora and the Dardanelles, but also three miles off shore from the mouth of the Dardanelles, and the Bosphorus and the Aegean Islands of Samothrace and Imbros, Tenedos and Lesbos. A land zone is also provided extending from 10 to 17 miles northwest of the Sea of Marmora and 8-23 miles southeast of it.

Its northwestern limit is partly common with the district of Smyrna, 55 miles southeast of the entrance to the Dardanelles. The zone also includes an area on the western side of the Gallipoli peninsula which Turkey concedes to Great Britain, France and Italy for war memorials and cemeteries.

## To Preserve Peace

Organization of New International Body Under Way at The Hague

The Hague.—The conclusion of the jurists invited by the League of Nations to meet in this capacity for the organization of a permanent international court of justice opened its sessions here. The conference was inaugurated by Leonard Bourgeois, president of the French associated societies of Paris.

"The terrible lessons of the war," said the French statesman, "were necessary to make the peoples of the world understand that the basis of peace between nations did not lie in force." He declared that the proposal of a court would be a really permanent body, not merely a court of arbitration, and that it would render decision from which there would be no appeal. It would be necessary, he added, to have a strong organization to carry out the decisions which would be made in future by the body to be organized.

## MOTHER!

"California Syrup of Figs"  
Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruit taste. Full directions on each bottle. You must say "California."

# Would Compel Irish to Take Oath of Allegiance

## Big Profit in Shoes

Shoes Cost \$9.75 and A Toronto Man Pays \$22 A Pair

Ottawa.—In a judgment signed by commissioners W. F. O'Connor and James Murdoch, the Board of Commerce finds the Manhattan Shoe Company of Toronto, "guilty of an offence against the Combines and Fair Prices act in that they sold to Robert Lachapelle a pair of shoes for \$22, being a price higher than was reasonable and the board directs the company (K. N. and S. N. Sah) and each of them to mark in plain and legible figures, on the sole of each pair of boots, shoes, slippers, pumps and other like articles which now are or may hereafter for the space of twelve months from this date be held for sale, or offered for sale, by them, or either of them, the price to the customer."

This case involves the purchase of a pair of shoes from the Manhattan Shoe Company on May 8 for \$22. The shoes cost \$9.25 a pair, at the factory and express, taxes and box for the shoes brought up the cost to the Manhattan Shoe company to 9.75. The shoes being thereupon marked up for sale at \$14 a pair, but were actually sold to the complainant on May 8 for \$22.00.

The board will forward to the attorney general for Ontario a recommendation that the guilty party be prosecuted.

## Co-Operative Stockyards Are Successful

Encouraging Report Submitted By Directors at Meeting in Moose Jaw

Moose Jaw.—That the first four and a half months' operations of the Saskatchewan Co-Operative Stockyards have been completed with entire success, came to light when the first annual meeting of the shareholders was held in the Livestock Exchange building, Moose Jaw. The director's report was most encouraging and showed a comfortable surplus after providing for certain organization and depreciation expenses.

A dividend will not be declared, it was decided, until the company had been in operation for a full year. The meeting was very well attended and the president, J. H. Grayson, and the manager, Edward Evans, were highly complimented on the splendid showing made by the stockyards in such a short time they have been in operation. The retiring directors, Senator Willoughby, W. A. Munro, of Moosejaw, and Trefle Bonneau, of Willow Bunch, were re-elected. The shareholders expressed themselves as particularly satisfied at the large quantities of stock reported as having been received from the neighboring provinces of Alberta and Manitoba, as well as from the eastern and northern sections of the province.

## Many Strikes in May

Ottawa.—A return in the commons shows that in May there were 73 strikes, involving about 12,000 people with a time loss of 145,468 working days. In April there were 44 strikes, 6,629 people idle and 84,009 working days lost.

## Watching the States

London.—Walter Hume Long, first lord of the admiralty, declared in the house of commons that the admiralty was following important developments of the naval program of the United States with the greatest closeness.

## More Divorces Granted

Ottawa.—Six more divorce bills were passed by the private bills committee, and there are still nine more divorce bills to be considered.

London.—The house of commons has tabled proposed amendments to the Irish Home Rule bill, designed to prevent setting up a republican parliament in Ireland, by making it essential that all candidates take the oath of allegiance to Great Britain in order to qualify for office.

The amendments also provide that under certain conditions, the British viceroy of Ireland would be empowered to assume supreme legislative authority.

Sinn Fein sympathizers declared the amendments bore out their prediction that the government had a joker up their sleeve, adding that no Sinn Feiner would take the oath of allegiance.

Dublin.—A pitched battle occurred between a group of armed Sinn Feiners and British soldiers at Ballinacorney military camp, near Dunmurry, in which many shots were exchanged. The raiders were finally driven off. No report was available as to whether there had been casualties.

Dublin.—The new policy of the British government toward Ireland, soon to be instituted, involves the unconditional release of all Sinn Fein prisoners who have not been convicted, it is learned on good authority.

## Would Select Indian Chiefs

Old System of Hereditary Council May Be Done Away With

Ottawa.—That the government should institute the elective system of securing councillors for Indian bands wherever possible, and that there should be a standing select committee of the house on Indian affairs, were the resolutions brought into the commons by the special committee, to amend the Indian act, whose report was tabled recently.

The committee was of the opinion that administration of the affairs of an Indian community or band by the hereditary council might be detrimental to the best interests and progress of the Indians.

It therefore recommended that wherever such a system now exists, the government should ascertain whether the majority of the male members of the band of the full age of 21 were in favor of the adoption of the elective system of choosing councillors, and if so that the provisions of the Indian act in this regard should be brought into operation as soon as possible.

## Good For Father and Good for Son

MR. C. ROY PRAISES DODD'S  
KIDNEY PILLS

He States That They Relieved Him  
Of Bladder Trouble. Ask Your  
Neighbor About Dodd's Kidney  
Pills.

"Thivierge Office, Bonaventure—Que., June 21st.—(Special).—That Dodd's Kidney Pills are so successfully used by both old and young as a remedy for bladder trouble is again shown by the statement of Mr. Clement Roy, of this place.

"I am glad to be able to state," Mr. Roy says, "that Dodd's Kidney Pills relieved my little boy of bed wetting. They also helped my bladder trouble. I cannot say too much in praise of Dodd's Kidney Pills."

Dodd's Kidney Pills are a kidney remedy pure and simple. But bladder and urinary troubles come as a result of weak or diseased kidneys. The natural way to treat such trouble is to strengthen or help the kidneys.

Mr. Roy acted on this principle when he used Dodd's Kidney Pills for his own and his son's troubles. The satisfaction he got is voiced by his statement.

If you have not used them yourself, ask your neighbors at Dodd's Kidney Pills are not the remedy for kidney ills.

J. W. PHILLIPSON, Auctr.  
 W. G. LIEMER, Clerk.  
 SID CLEMENTS, Owner.

## WESTCOTT

Mrs. John Findlay left Friday for Alberta to help in the camp meeting. Rob and Wilfred Wilson are enjoying a visit with their cousin from North Dakota.

Tom Murphy and family took dinner at Allen Hunspergers Sunday.

Mr. and Mrs. Versandra attended S.S. at Westcott Sunday morning.

Miss Ethel Klinek was taken with an attack of appendicitis and was not able to return to school for the exam.

August Dunsford left about a week ago to join his brother and sister who live at Portland, Ore.

The Ladies' Aid had an all day meeting at Mrs. Isaac Levegood's. The day was spent in an old fashioned velvet rug making, which was much enjoyed by all.

A number of young people attended the program at Garfield last Friday night.

Mrs. Remick, Mrs. Wilson, Mrs. Carl Russell and Mrs. Murphy attended the temperance lecture in town last Tuesday evening.

## ELKTON

Shun-day baseball fans are rather disappointed, since one is always taking the joy out of life.

A nice dance Mr. Cowitz thanks very much we shall now look forward to the next one.

Mr. Cowitz was on the point of getting out a search party at lunch time when Capt. L. was missing, but the Capt. was discovered in a dimly lighted corner of the stairway with a very charming partner.

John McKee is very busy these evenings learning the twisting movements of crooked steers.

Tan McIntyre is getting to be an expert on rousing up stock.

Bugby is going in strong for tennis but up to the present there has been very few attending the courts.

Robbie seemed very pleased with Mr. Cowitz' lighting system, though rather disappointed when there was no moonlight waltz.

## HIGHLAND

Hardly of Didsbury says he doesn't mind going lost in the wilds of Highland, but it has been even worse to run short of fabricant so far from town.

Moss Olsen is busy seedling now days.

Grandpa is home again, and though it is a little late, he is busy planting potatoes.

Last week Carl Myers, better known as Didsbury's speed king, was taking Harry McKnight home from a ball game with an "Overland 90".

He said he had travelled over all kinds of trails, but as he neared the Edwards school house he never saw track roads. He made the big hill west of school both ways, it being the first time any car ever made the grade. Harry made the hill last week, but with a Ford.

Dicksie:

Life itself is aptly likened to a game.

It's all right to aspire to control others but have you begun with Number One?

## Edmonton Exhibition

Locklear, the aviator-gymnast, who will appear at the Edmonton Exhibition on July 5th, is guaranteed to inject more thrills into the program than anything which has ever been seen in Alberta. He uses two airplanes in his act, controlled by experts who can anticipate his every move, and he climbs from one plane to the other, stands on his head on the wings, hangs by his toes, and crawls all over the planes while going up top speed with air.

Auto polo will this year be an innovation at the Exhibition, and horse and auto races will provide plenty of opportunity for guests work on the part of ringside spectators.

The attractions for the grandstand are very high class, and include the 18th Highlanders' Band of Toronto (Canada's crack military band) and the leadership of Capt. Statter. The midway will be furnished by Johnny J. Jones, the king of the carnival world, who travels personally with his shows, and the contract calls for the elimination of all objectionable features such as freaks and deformities, etc.

Excursion rates will prevail for the Edmonton Exhibition, which opens on July 5th.

## THE COW

The cow is animated steak and sole leather. She furnishes half the milk of common sense and a barrel of milk will cross the cow with a common byrander and the progeny will furnish all the milk of commerce and save half of the dairyman's labor. Cows are of two sexes—the female cow or cow proper, and the male cow, used as a synonym for political speeches.

The cow has lower teeth in front of her head, but no upper teeth, and as a result she never gums things up. She bites up and gums down. Shortage of teeth made it necessary to install a second stomach. This one closely resembles the modern system of education. It is stuffed to capacity, but never digests anything.

The other stomach, technically known as the second floor back, never gets dinner until long after meal time.

When a cow becomes meat the various steaks are named after the locality they once frequented and are sold at prices that lead to the popular belief that butchers are related to the late Capt. Kidd. When all of a cow that can be eaten has been sold the residue is ground in a machine and becomes fresh pork sausage. Years ago one possessors of ten cents could buy enough steak for a family of five. Now one must have two or three dollars to buy steak for two—one dollar to pay for it and another to wrap it in.

The cow's one garment is known as a hide. To the after deck of the hide is fastened a tail which carries a universal joint and works a tassel on the end. The tassel is used to drive away flies and to polish the teeth of one who is milking the cow. When the cow has no further use for the hide it is tanned and becomes leather, but in these days of profiting leather is not used for this sole purpose. Frequently paste boards are used.

The cow has a cloven hoof and because of this characteristic is suspected of depravity and hypocrisy. In truth she is a creature of a staid and modest creature. Others may follow fad fashion and cavort in wild jazz dances, but she retains her ancient love for the old-fashioned and highly respectable haw—Rote. Gallop in Saturday Evening Post.

Honking your horn doesn't help so much as steering wisely.

## NERONIUS MARTIUS

(Concluded from page 2.)  
 headed, but when they consume some of this medicine they become "seers" and develop great stoniness and strategy when cornered. Many Martians are agreed that this beverage is a direct gift of the gods because of its inspirational qualities, and also for the power it imparts to the user of "light and shade," principally shade, for as a rule it is made in the shade, sold in the shade, kept in the shade and drunk in the shade. Strong men are up in arms against this shady business. They are resolved to bring the shades to light and relegate this divine tonic to Hades where all the shady—hold forth.

Moreover, an edict has gone out from the Emperor that all Martians were a post bellum conflict against this business. They are the ultimate good of Mars, and I hear that all Martians of high standing and understanding are strenuously opposing their broad swords and polishing their shields.

"Hello, Hello!" That the hegemony, the point of my walking stick is burnt to a grey ash. I wonder if the old fossil has been pulling my leg. It all sounds so unusually familiar.

You have no idea how big the other fellow's troubles are.

Westcott sports will be held on Wednesday, July 21.

## World's Future Lumber Producer

South Africa is now pointed out by a leading authority as one of the world's best fields for growing timber. The work he says, must be done on a large scale by the government, as individuals cannot wait for the returns. Various kinds of pine are declared to be the trees most suitable. The various winds exert such a twisting upon growing trees that straight-grained timber of certain kinds is difficult to obtain. Pine seems to withstand the contorting influence more effectively than other kinds, and very fine, straight-grained timber of this sort is produced.

O. McPherson, Furniture Dealer, Undertaker, Armstrong, B.C., June 11th, 1919. Minard's Limentum Co., Ltd., Vancouver, B.C.

Dear Sirs—Much the start of the baseball season we have been hindered, with sore muscles, sprained ankles, etc., but just as soon as we started using Minard's Limentum our troubles ended. Every baseball player should keep a bottle of your Limentum handy.

Yours truly, W. E. McPHERSON, Secretary Armstrong High School, Baseball Team.

## Enslaved and Baby Beef

Twenty-eight head of eleven-month old cattle have just been sold from the supply farm of the Canadian Pacific Railway at Strathmore, Alberta. These animals brought an average price of \$109.00 per head. Their average weight was 721 pounds each, so that the price of this baby beef was \$5.25 per hundred pounds.

Enslaved constituted a large proportion of the ration and contributed to the financial success of this feeding enterprise in a season when it has been a difficult matter to make money in feeding beef.

## Catarrh Cannot be Cured

By LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE, which is a potent, non-toxic, and acts through the blood on the mucous membrane of the system. HALL'S CATARRH MEDICINE is composed of one of the best test blood purifiers. The perfect combination of the ingredients in CATARRH MEDICINE is what produces the wonderful results in catarrhal conditions. Testimonials free. E. J. Cheney & Co., Proprietors, Toledo, O.

## First Crop of the Season

The Sheep Industry of Western Canada Has Increased Very Remarkably

The gathering of the first crop of the season in western Canada—wool—will soon be in full swing. The lambing season is over and an average gain is reported, and now arrangements are being made for clipping. This year farmers in the three prairie provinces will have more wool for sale, and are looking forward to a somewhat higher price than last year, when they sold \$3.05, 00 pounds of wool at an average price of about 58 cents a pound.

During recent years the sheep industry in Western Canada has increased remarkably well among small farmers, who have found the country exceedingly well adapted to the needs of these animals, and that they pay immensely. In the province of Saskatchewan it is anticipated that the quantity of wool produced on the smaller farms will be about 100,000 pounds greater than the output from the same source last year. As the number of sheep on the Alberta and Manitoba farms has proportionately increased, a similar gain in the production of wool in these two provinces may also be expected.

## Keep Minard's Limentum in the house.

Find Fossilized Fish. While excavating at Berry Creek, Alta., a resident found the fossilized remains of a huge shell-fish and those of a big fish. The intelligent, phosphoric lures were still retained in the solid rock formation and a crust of limestone had been broken off to show the true hues of the mollusk and those of the fish.

A Prime Dressing For Wounds.—In some factories and workshops carbon is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not start the skin or burn the flesh. There is no other Oil that has its curative qualities.

## DO YOUR EARS RING? HAVE YOU CATARRH?

A buzzing noise in the head is the beginning of chronic Catarrh. If not checked the result is deafness. A simple remedy that many physicians advise is to slowly inhale Catarrhine—a few sniffs each day. The soothing vapor of Catarrhine cures the Catarrhal condition, and hearing improves at once. Head noises, buzzing ears are cured. For Catarrhal deafness, throat, nose and lung Catarrh, there is probably no remedy so efficient. The large one dollar bottle lasts two months and is guaranteed; small size 50c; trial size 25c. Sold everywhere by dealers, or the Catarrhine Co., Kingston Ont.

## A Self-Supporting Empire

The globe is not growing as much wheat as its inhabitants demand for their daily bread; not as much cotton as they need for their clothes; not as much sugar as will provide their wanted comfort and luxury. We take these three most conspicuous examples of scarcity. It is common to preach economy as a remedy, but when the necessities of life are in question great economies, even if possible, must produce suffering and enticement. The right prescription is increased production. It must begin, of course, at home, but no country at home can save to supply the empire overseas does its part.—London Daily Telegraph.

## Minard's Limentum used by Physicians

Thirty thousand cubic feet of air weighs roughly one ton.

## UTTERLY HELPLESS FROM ST. VITUS DANCE

The Sufferer Restored to Health Through the Use of Dr. Williams' Pink Pills.

St. Vitus Dance is a disease of the nerves brought on by a morbid condition of the blood. It is a common ailment, especially in children, and girls more frequently than boys. Irritability is frequently one of the first signs noticed. The child frets, it is quarrelsome, and does not sleep well. The jerky movements that characterize the disease come a little later. The patient becomes nervous, and often constipated. The limbs and sometimes the whole body jerks spasmodically, and in severe cases the power of speech is affected. Such a child should not be allowed to study, but should be kept quiet, given a nutritious diet, remain out of doors as much as possible, and above all things given a course of Dr. Williams' Pink Pills to build up the blood and restore the shattered nerves. Without this treatment the trouble may become chronic and require a lifelong sufferer. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the following statement by Mr. Frank J. Seiven, Acton, Ont., who says: "In January, 1917, when I resided at Milton, Ont., my daughter, Gertrude, then aged fourteen, had a bad attack of rheumatic fever, which left as its after effect a severe St. Vitus Dance. For a time she was confined to her bed under the doctor's care. She was entirely helpless, being unable to even hold a spoon to feed herself. For a time she lost the power of speech almost entirely and only with great difficulty made herself understood. The twitching of her muscles was so bad it was painful to see her. After a long time and taking a lot of medicine, she seemed to improve. But she did not seem to get about as she ought to. In November, 1917, we removed to Acton, and in January, 1918, she was again confined to her bed with St. Vitus Dance. She was again in a terrible state and quite helpless. She was under a doctor's care, and while there was an improvement, she was still very nervous, did not look well, and was always tired. In May, 1918, we decided to try Dr. Williams' Pink Pills, and see what they would do for her. She took them regularly according to directions, and after taking several boxes there was a decided improvement. After a further use of the pills she is now as healthy a girl as you would wish to see. She is fat, with a fine, healthy color, and is strong and lively. The neighbors to whom she is well known remark on the wonderful change in her appearance since taking Dr. Williams' Pink Pills. Both her mother and myself are convinced that the pills have done her a world of good as she is now far healthier than we at one time thought she ever would be."

For all troubles due to poor blood and weak nerves there is no other medicine can equal Dr. Williams' Pink Pills. You can get these pills from any dealer in medicine, or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Paper Strong as Steel

Astonishingly strong paper caps, capable of withstanding powerful blows, though extremely light in weight, have been invented by a British shipyard employee, and are intended to be worn by workmen whose duties expose them to danger from falling objects. Chemicals are employed to harden the material, without adding to its weight. Several styles have been made, the lightest weighing about seven ounces, and others slightly more. In a recent test a one pound bolt was dropped on one of them from a height of 40 feet, with the result that a barely perceptible dent was made in the paper. The novel steel coverings are proof against water and acids, and are non-conductors of electricity.

More than 75,000 children finish their school career each year in New York.

## Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

## AROUND THE TOWN

Mrs. J. E. Stauffer of Calgary was visiting with Mrs. (Dr.) G. M. Reed and other friends in the district over the week end.

The Rugby W.L. and U.F.A. will hold a picnic on Wednesday, July 7, in Charles Brown's grove. Lunch at 1 p.m. Everybody welcome.

A cup or medal or other trophy is not the real prize the victor receives; the real prize, the real reward, is the satisfaction derived from superior, worthy achievement.

A large number of the members of King Hiram Lodge, A.F. & A.M., went to Olds on Sunday afternoon to attend service with the Olds lodge. There was over 120 members of both lodges at the church.

Fred Stevens of the Stevens Service Shop, returned last Thursday from Olds, Ill., where he has been employed with the Ramsey and Ford firms for some months. Fred says he has come back with many new wrinkles on auto and tractor service.

The Women's Institute will meet at the home of Mrs. Aswell at 2:30 p.m. Thursday, July 8. Community singing, roll call and a question box. A paper will be given by Mrs. Norman Clarke on "Women in Public Life." All the ladies are welcome.

A nice race fell over town and for a short distance around on Thursday evening last, but there was not enough of it. Crops are looking fine, especially showing a splendid stand, but the hay crop is going to be a poor one in the eastern part of the district.

Miss Wilde of Calgary is visiting with Mrs. Cook of the Press Box Goods store, on her way back to England for a visit. Miss Wilde favored the congregation of the Presbyterian church with a splendid solo entitled, "Dream of Paradise," on Sunday night, which was greatly enjoyed.

Wealth is not the real prize of life; it is only a trophy, a symbol, and may carry with it no satisfaction; indeed it does not carry with it genuine, lasting satisfaction unless it has been won fairly, honestly, honorably. When in a fix, sweating will get you further than swearing. Let mules do the kicking.

The great annual camp meeting of the M.B.C. church will commence on July 2nd and will continue to the 11th. Everybody is invited to this camp meeting to hear the many well known Christian leaders and workers amongst whom is Evangelist Eld. N. W. Rich of Rocky Ford, Colorado. Further particulars can be secured from Rev. F. Gugin, Didsbury.

Patrons of the opera house were delighted on Saturday night with a special feature in the singing of Miss J. Wilde who is a visitor in town for a few days. Her rendition of "Angus McDonald," and "When Irish Eyes are Smiling," provided splendid medleys, through which to show her ability as a singer to captivate the hearts of any audience. Needless to say, Miss Wilde "brought down the house."

Mr. J. Stevens, who now owns the big barn on Sandy Patterson's place east of town, is equipping it as a factory for making his well known brush cutters. He has several machines installed which includes a large drill press, powerful shears and punch, lathe and grinding apparatus, all run by gasoline power. He is working on an improvement that will

make his brush cutters more popular than ever, and states that he has enough reserve orders for those machines to keep him going all summer.

Westcott Sports, Wednesday, July 21.

A volley ball team composed of Will Miller, Fred Myke-Mackenzie, Fred Osmond and Bill Farington, went to Olds on Monday night to try conclusions with the Olds gladiators. The locals were badly defeated, but oh well, wait till the next time. They got on to some wrinkles that will help them.

To win, to earn and enjoy the fruits of victory, you must play fair. Don't expect poor work now to lead to brilliant work hereafter.

## DIDSBURY LEADS LEAGUE

The local ball twisters have been striking a winning gait for some time and as a consequence now stand at the head of the Central Alberta League by a good margin.

Last week they succeeded in defeating the Crossfield Skyrockets by a score of 8-3.

The Didsbury team is playing very classy baseball this season which reminds the old timers of the Didsbury football teams of other years.

Westcott sports will be held on Wednesday, July 21.
